DEV tips

We know how important it is for you to feel informed and involved in your children's development and learning. That's why we've included info about our Developmental Tips (Dev Tips). Our curators use these to understand the different skills children are developing during each class and help us explain all the learnings your little ones are soaking up.

SENSE

Our sensory play activities allow children to engage with age-appropriate surroundings as they develop their senses.

DO

Practising with our fine motor skills and hand-eye coordination help develop pre-writing skills, dexterity and performance of everyday tasks.

MOVE

Movement is important for developing spatial awareness, balance, coordination and healthy cognitive functions.

RELAX

Mindfulness plays a vital role in helping us to understand our emotions and feelings.

CALCULATE

Children work with a variety of shapes, weights and measures while identifying patterns and developing spatial awareness.

DISCOVER

Learning about our wonderful world, its cultures, traditions, and values is a big step towards a more educated, tolerant and connected future.

IMAGINE

Imagination allows us to think outside the box, engage with others, and explore different situations with empathy and understanding.

MAKE MUSIC

All our creative classes explore songs, rhythms, rhymes, instruments and themed playlists.

CREATE

Creativity is a gift we all possess - we are free to express it, without judgement, through play, art, roleplay, music and dance.

DOODLE

Rich learning experiences come when children are encouraged to doodle and create their own marks, symbols and words while linking imagery to meaning.

READ

Learning to read starts from a surprisingly young age through listening to stories and seeing narratives unfold.

CHAT

Communication is vital to language development - by taking active roles as talkers and listeners we quickly become good at delivering and processing oodles of information.

SOLVE

Problem solvers learn through trial and error, so we find age-appropriate ways to take ingenious risks, be challenged and think creatively.

ENGAGE

Developing social skills is crucial for working as a team and understanding the importance of being kind to ourselves and one another.

Here's a deeper dive into each of our signature classes and what you can look forward to...
