#ForBrightCollegeYears represents a collaboration between the Yale College Office of Development, Yale Alumni Fund, and Yale Alumni Association to engage current undergraduates in the impact of philanthropy and alumni connections on campus while stewarding lifelong relationships with the University.

From the moment they arrive at Yale, all students experience the support of a community of donors, alumni, and administrators. This community stretches back for generations and provides the resources current Yalies need to shape the College’s present and future.

Through outreach that is both entertaining and educational, #ForBrightCollegeYears introduces the vitality of alumni and donor support while inviting students to leave their mark on Yale long after they graduate.
The Yale College Office of Development secures gifts for a range of programs across Yale College, from FGLI student support and mental health and wellness resources to renovations in the residential colleges. We collaborate with students, donors, and the Dean’s Office to reflect evolving campus priorities and maximize donor impact.

The Yale College Alumni Fund supports undergrads. When alumni make donations of all sizes to the Alumni Fund, those funds are applied immediately to your Yale College experience. From financial aid, athletics, library resources, and much more, gifts to the Alumni Fund touch every part of your time here at Yale.

The mission of the Yale Alumni Association is to enhance and renew the lifelong Yale experience for all alumni, whoever they are and wherever they may be. We strive to inspire new ideas, affiliations, friendships, professional fulfillment, and acts of service, around the world.
